

NIGHT SPLINT DONATED PEGS

Donation of a night splint to the Notre Dame de Lourdes physiotherapy center in Lomé.

Donation of splint (Chevillere night splint) to CNAO Lomé (Centre National d'appareillage orthopédique de Lomé)

TESTIMONIAL BY MADAME KALIM

Madame Kalim, 59, is a vendor at Lomé's main market. She has been suffering from plantar fasciitis in her right foot for 3 years. Following a medical diagnosis, she underwent medical treatment with no real outcome. After her consultation at the Notre Dame de Lourdes physiotherapy center, she underwent physiotherapy sessions and needed a night splint. Until now, she hadn't been able to afford one. OADCPH's donation of a night splint ankle brace was a welcome relief.
